everything you could imagine - and more

" i am daniel bingley

After being injured I turned to sport, and basketball was one of the sports I tried and fell in love with. I could not afford a chair to play.

I went to a great charity, Shrapnel, and with their help I got my chair. I have learnt to live again and I was chosen to take part in the 2018 Invictus Games where I won a number of medals.

Thank you so much. "
